For future growth, for future generations, and for a future Japan that is robust.

We should look to the future, rather than worry about the present. Japan may be ageing. Japan may be losing its population. But, these are incentives for us.

– Prime Minister Shinzo Abe
Setting the economy on course to overcome deflation and make a steady recovery with the Three Arrows

In early 2013, after two decades of economic stagnation, Prime Minister Shinzo Abe unveiled a comprehensive economic policy package to sustainably revive the Japanese economy while maintaining fiscal discipline. This program became known as Abenomics.

The centerpiece of Abenomics has been the three “policy arrows” targeted at aggressive monetary policy, flexible fiscal policy and growth strategy including structural reform.

Since then, Abenomics has achieved remarkable progress.

For example;

- Nominal GDP grew from 495 to 532 trillion yen\(^1\) between the fiscal years of 2012 and 2015\(^2\)
- Annual corporate ordinary profits increased by 20 trillion yen between the fiscal years of 2012 and 2015\(^3\)
- Unemployment rate declined from 4.3% to 3.1% between 2012 and 2016\(^4\)
- Core CPI improved by 3.0% between 2012 and 2016\(^5\)

And now it is gaining speed. This document offers the latest on the reforms being implemented to reach a GDP of 600 trillion yen, including work style reform to raise productivity and increase the workforce in the midst of demographic changes.

1. Average exchange rate for November 2016: USD = JPY 108
2. Source: Cabinet Office “National Accounts”; “Fiscal 2017 Economic Outlook and Basic Stance for Economic and Fiscal Management”; The Japanese fiscal year starts in April and concludes in March of the following year
3. Source: Ministry of Finance “Financial Statements Statistics of Corporations by Industry” All industries, all (firm) sizes, Seasonally adjusted figures

Engines that keep the positive economic cycle spinning

1. Boost Productivity
   p. 3–4
   Boost productivity by changing work style and diversifying the labor force to cope with the demographic change
   - Leads to wage increase and employment, resulting in higher income and a rise in consumption

2. Drive Innovation and Trade
   p. 5–8
   Implement structural reforms such as deregulation in the agricultural sector and other areas with growth potential, as well as expand international trade
   - Leads to the creation of new demand and increased capital investment

3. Energize Corporate Activities
   p. 9–10
   Continue to create a business-friendly environment and promote inward FDI through robust corporate governance and further corporate tax reduction
   - Leads to rise in corporate performance

- Drive Innovation and Trade
  - Leads to wage increase and employment, resulting in higher income and a rise in consumption

- Energize Corporate Activities
  - Leads to the creation of new demand and increased capital investment

- TOP DESTINATION FOR FINE DINING
  According to The Michelin Guide (2017), Tokyo has the most Michelin-starred restaurants globally.

  1. Tokyo
  2. Paris
  3. Kyoto
  4. Osaka
Change how we work

We realize that to sustain growth with a shrinking workforce calls for an urgent evolution to boost our productivity. And to achieve higher productivity, a system that rewards work based on performance and a flexible working environment are the keys.

This transformation would not only improve corporate performance, but also increase wages, while achieving better work-life balance, eventually leading to a rise in consumption.

The Council* is discussing a revision of the Employee-Employer Agreement (so called Article 36 Agreement) to change habitual practices of prolonged working hours.

The Council* is discussing the introduction of “equal pay for equal work,” which would minimize the wage gap between regular and non-regular workers.

Career change and reemployment will be heavily supported, particularly in industries that are in need of new resources.

In August 2016, the Minister for Working-style Reform was appointed, and the Council* was established and tasked to compile a concrete action plan by the end of March 2017.

A draft of guidelines for “equal pay for equal work” was publicly released in December 2016.

*Diversity in Labor Force

* Council to Realize Working-style Reform (Chairman: PM Abe)
Embrace diversity

Given the declining work population Japan faces today, we need to include more people in the workforce. That is why our work and business customs are in the process of being reassessed, and a wide range of working opportunities is becoming accessible to women, senior citizens and expatriates whose chances were limited before.

WOMEN

Lessen the burden of working parents and accelerate women’s promotion

More information: http://www.japan.go.jp/women

- Secure additional child care capacity for approximately 500,000 children by the end of FY2017
- Increase child care leave benefits from 50% to 67%, applied to the first six months of leave
- Mandate businesses to disclose information on the employment status of women and their future targets
- Select and promote enterprises that encourage women’s success in the workplace as “Nadeshiko Brands”
- Provide female candidates with executive leadership training programs from the world’s leading business scholars

SENIORS

Facilitate change through engagement with businesses

- Provide a choice to extend retirement age for those who want to work, as well as support companies that extend the limit
- Provide support in matching job openings and applications
- Drive more companies to establish family care leave systems to retain senior employees who need time to look after parents who are in need of constant care

EXPATRIATES

Leverage legislative reforms to promote and expand opportunities

- Expedite permanent residency by introducing “Japanese Green Card for Highly Skilled Foreign Professionals”
- Promote expatriate entrepreneurship and increase expatriate housekeeping support workers in Tokyo, Kanagawa and Osaka by leveraging National Strategic Special Zones
- Expand job categories, increase admission quotas and extend training periods from three to five years by revising the current Technical Intern Training Program

From 2012 to 2016, the number of women joining the workforce increased by more than 1.5 million

1 Law took effect in April 2014
2 Law took effect in September 2015
3 Law will take effect by November 27, 2017
In September 2016, the Council* was established and tasked to compile a road map to realize Society 5.0 by mid FY2017.

Japan is a country renowned for its technology and skilled workers. We are rapidly moving towards Society 5.0, adding a fifth chapter to the four major stages of human development: (1) hunter-gatherer, (2) agricultural, (3) industrial and (4) information.

In this new ultra-smart society, Japan will further expand networking and IoT capabilities from advanced innovations in manufacturing to every corner of society, dramatically improving quality of life and accelerating economic growth.

**Technology**

- Continue to maintain worldwide leadership in the technology industry
  - Make it a government initiative to generate 30 trillion yen of added value by supporting growth in the areas of the Internet of Things, Big Data, Artificial intelligence, Robotics, etc.
  - Identify necessary regulatory reforms under leadership of the Council*
  - Support SMEs in adopting new technology such as robotics to improve efficiency
  - Accelerate data utilization to foster areas such as autonomous driving and drones
  - Provide programming education at elementary and secondary schools to foster information literacy

*1 In February 2017, a subcommittee dedicated to the development of automated driving (technology, legislative systems, etc.) through the formulation of a Regulatory Sandbox System was set up in Tokyo

**Startup Businesses**

- Encourage entrepreneurialism nationwide through deregulation and support
  - Facilitate business partnerships between startups and universities
  - Establish special incentive measures to promote venture investment
  - Support talent development through exchange programs with Silicon Valley

**Example in Tokyo Area: Business Establishment**

- Consolidate scattered registration outlets for different documents into one convenient outlet

  - Tokyo One-Stop Business Establishment Center (as of December 2016)
    - Centralizes all application services in Tokyo
    - Increased capabilities regarding the handling of the Certification of Eligibility for visa applications

  - 3,694 cases completed (as of January 2017)

---

* Growth Strategy Council (Chairman: PM Abe)
Leverage structural reforms

**HEALTHCARE**

Expand the market from 16 trillion to 26 trillion yen by 2020

- Create a framework for private firms to provide medical-related services not covered by public insurance in cooperation with insured medical services for integrated care
- Alleviate nursing care burden by utilizing robots and sensors
- Provide customized healthcare services based on personal data collected by wearable devices
- Enhance R&D in drug development and treatments by leveraging big data analytics
- Further promote Japanese medical services and devices overseas

A shot in the arm to energize the healthcare industry

- Enact an adaptive licensing approval system, to bring regenerative medicines to market more quickly
  - Law took effect in 2014
- Introduce new MMS* scheme to allow easier and affordable access to advanced medical treatment
  - MMS = The scenario where a patient receives both insured and uninsured treatment performed in the same series of medical treatments
  - Law took effect in 2016
- Promote business alliances through a new healthcare corporation system
  - Law enacted in 2015

**ENERGY**

Increase investments from 18 trillion to 28 trillion yen by FY2030, addressing global warming

- Extend the “Energy Efficiency Benchmark Program” to cover 70% of annual energy consumption of all industries
- Maximize introduction of renewable energy while minimizing the national burden under the revised Feed-in Tariff (FIT)
- Realize a “hydrogen society” by supporting R&D and implementation of fuel cells and hydrogen refueling stations
- Strengthen Natural Resource Security in the area of marine resources and recycling

A comprehensive reform for the first time in 60 years

- Open the electricity retail market to new entries followed by mandating legal unbundling of the transmission/distribution sector to achieve full liberalization of the market
  - Law enacted in 2015. Partially implemented in 2016, aim to complete by 2020
- Mandate legal unbundling of pipeline service sector for the three major gas companies to achieve full liberalization of the market
  - Law enacted in 2015. Aim to achieve in phases by 2022 starting in 2017

**AGRICULTURE**

Double the integrated market value from 5.1 trillion to 10 trillion yen by 2020

- Accelerae restructurings in the material production business (e.g., fertilizer, feed) and also in the distribution business (e.g., wholesale)
- Encourage cross-industry collaboration to spur smart farming
- Aim to achieve 1 trillion yen in overall exports by 2019*

A First major structural reform and deregulation in 60 years

- Reform the Agricultural Cooperative system to encourage entrepreneurialism and seek new market entrants
  - Law took effect in 2016
- Enact legal reforms to consolidate scattered farmland and optimize use
  - Law took effect in 2016
- Establish nationwide export promotion institutions for major products
  - Institutions established in 2014 and 2015

Agriculture, forestry, fishery and food exports have reached 750.3 billion yen in 2016, breaking the record four years in a row

EXAMPLE IN YABU (HYOGO PREF.): AGRICULTURE

1st time for 3 private companies to be allowed to buy farmland to produce garlic, rice, flowers, etc.

EXAMPLE IN SENBOKU (AKITA PREF.): TECHNOLOGY

1st automated bus driving test to be conducted on a public road (November 2016)

233 reforms undertaken

Turning successful cases of motivated regions into touchstones for nationwide implementation

2 Amended the Law on National Strategic Special Zones in May 2016 to extend and further advance reforms in focus areas by the end of FY2017
3 The Cabinet Office established a joint bureau with the Tokyo Metropolitan Government (October 2016), and also separately with Yabu City (December 2016) to promote and accelerate the extensive use of the Special Zone

1 Includes production, processing, retail and distribution
Build on international opportunities

To this day, Japan’s economic growth has been based on free trade. Japan has shown its commitment to lead and promote free trade by swiftly approving the Trans-Pacific Partnership (TPP) agreement.

The promotion of the export of Japan’s high quality infrastructure to meet expanding global infrastructure needs is crucial to Japan’s economic growth, and helps to construct win-win relationships that contribute to the economic development of partner countries.

FREE TRADE

Leverage free trade and other economic agreements
- Encourage the early entry into force and the expansion of TPP
- Promote negotiations on other economic partnership agreements, such as Japan-EU EPA, RCEP and Japan-China-ROK FTA
- Provide assistance for SMEs to expand their businesses overseas

INFRASTRUCTURE EXPORT

Promote quality infrastructure investment

More information: http://www.japan.go.jp/infrastructure
- Provide financing to infrastructure projects worldwide of approximately USD 200 billion as a target for the next five years
- Accelerate Japan’s assistance, and encourage investment / financing by private companies
- Strengthen the institutional capacity and financial grounds of Japan’s aid organizations*
* Including JICA, JBIC, NEXI and JOGMEC

FTA COVERAGE RATIO

2018 target 70%
45.5% Under Negotiation
39.5% 2018 target

The Japanese Diet approved the TPP and its related bills in December 2016
Agreed with Prime Minister Modi of India on the development of the bullet train between Mumbai and Ahmedabad by 2023

* Approximate figures
Circulate growth to regional economies

Japan’s business resources don’t just lie in Tokyo. In fact the regional areas are kaleidoscopes of many energetic SMEs and players in the service industry. Each and every one of them are part of a combined effort to make the regional economy shine. In addition, the number of inbound tourists being attracted by the regions is soaring. That is why we are determined to accommodate an environment in which the international community can travel to every corner of Japan conveniently.

**SMEs**

Modernize SMEs to comply with global standards
- Encourage financial institutions to engage in the profitability enhancement of companies and review the credit-guarantee system
- Accelerate the establishment of data utilization platforms and provide IT support to increase productivity
- Support the international expansion of SMEs, particularly Japan’s numerous “hidden champions”

**TOURISM**

Reinforce tourism as the centerpiece of regional revitalization
- Form world-class DMOs and train tourism management specialists
- Promote branding of national parks, usage of cultural properties, and create globally attractive travel routes
- Improve tourist experience with additional free Wi-Fi spots and 3,000 ATMs equipped for international transactions
- The “Integrated Resorts” Promotion Bill was enacted in December 2016

**SERVICE INDUSTRY**

Double labor productivity growth to 2% in an industry that accounts for 70% of GDP
- Customize plans for intensive legal restructuring, tax reductions or financial support in seven key sectors*

---

1 DMO = Destination Management / Marketing Organization
2 Excluding day trip travelers

---

* Accommodation, Truck transportation, Restaurants, Medical, Nursing care, Child care, Wholesale and Retail

---

**EXAMPLE IN TOKYO AND KANSAI AREAS: TOURISM**

Deregulate private room rentals for lodging in Tokyo, Osaka and Fukuoka

Increase capacity and variety of accommodations for tourists—least number of stays were decreased from six to two nights

199 rooms authorized as of February 2017, marking 675 guests

---

**INBOUND TOURISTS AND EXPENDITURE**

- 2012 (estimate) 8
- 2016 24
- 2020 target 40
- 2030 target 60

**REGENS WITH A HIGH GROWTH RATE OF INBOUND TOURISTS**

(Growth from 2012 to 2015)

- 150% growth or more
- 120–149% growth

---

Source: Japan National Tourism Organization “White Paper on Tourism in Japan”; “Annual Statistics on Overnight Travelers”
Encourage business and investment

Continuity makes a difference. Corporate tax reduction has been one of the key reforms that have progressed since the early stages of Abenomics, and one which will continue to advance.

Corporate governance and the stewardship code urge companies to improve dialogue with investors for continued growth and investment, thus making the economy more robust.

**CORPORATE TAX REDUCTION**

Stimulate growth through business-friendly reforms

- **Effective corporate tax rate reductions**
  Reduced the effective corporate tax rate below the 30% mark in FY2016

**CORPORATE GOVERNANCE**

Strengthen investor confidence through transparency

- **Japan’s Stewardship Code**
  Accepted by 214 institutional investors
- **Japan’s Corporate Governance Code**
  Applied to more than 2,000 companies and as a result;
  » Half of major companies reduced cross-shareholdings in FY2015
  » Percentage of listed companies with external directors rose to nearly 100%
- **Efficient disclosure and provision of information**
  Eliminate overlaps in the disclosure rules and expedite provision of information (relevant documents) to shareholders by electronic transfer

**Property tax reduction for SMEs**
Halve the property tax for facilities improving productivity invested by SMEs from FY2016 to FY2018

---

Drive inward FDI

Openness is an integral factor to maintain looking forward. And our vision to become the most business-friendly country in the world extends to both a business and societal level, as seen in the Policy Package for Promoting FDI into Japan to Make Japan a Global Hub, which was announced in May 2016. The overview is shown in this page.

PR ACTIVITIES ENHANCEMENT
Attract foreign companies through promotional activities

• Disseminate information through approximately 50 FDI seminars during FY2016
• Support domestic SMEs to engage in business matching opportunities with foreign counterparts, by utilizing a designated website, J-GoodTech: http://jgoodtech.smrj.go.jp/
• Promote large-scale hub establishments in regional areas, with supplemental training for regional government officials and financial support for industry-academia collaboration

BUSINESS AND LIFESTYLE SUPPORT
Resolve issues hindering foreign companies’ entry into Japan

• Attract and foster globally competitive human resources with the “Japanese Green Card for Highly Skilled Foreign Professionals”
• Relax regulations and improve administrative procedures as seen in the case of the Tokyo One-Stop Business Establishment Center
• Improve the living environment for foreign nationals, through such measures as the increase of bilingual healthcare professionals and educational support

Net amount of inward FDI in 2015 marked a record high of 24.4 trillion yen

1. Five reasons to invest in Japan

   1. Japan’s Re-emergence
      Through the implementation of Abenomics, the Japanese economy is recovering and opening up

   2. Sophisticated Market
      Japan’s market is both large and sophisticated, ranking 3rd in the world for GDP, and provides huge opportunities and potential for business

   3. Innovation Hub
      An abundant talent pool, good track record in patents, and an outstanding research environment enable Japan to stay ahead in the technology industry and scientific research

   4. Business-friendly Infrastructure
      Convenient transportation, low-cost office rents and access to quality suppliers positions Japan as one of the most sophisticated business environments

   5. Safe and Comfortable Living
      A well-developed health industry and social stability make Japan a world-class livable city

EXAMPLE IN TOKYO AND KANSAI AREAS: EXPATRIATE OPPORTUNITIES

Enable certified private companies to hire expatriates in the field of housekeeping services in major cities in Tokyo, Kanagawa and Osaka

Six companies certified to accept expatriate housekeepers as of February 2017

EXAMPLE IN TOKYO AND KANSAI AREAS: EXPATRIATE OPPORTUNITIES

Enable certified private companies to hire expatriates in the field of housekeeping services in major cities in Tokyo, Kanagawa and Osaka

Six companies certified to accept expatriate housekeepers as of February 2017

EXAMPLE IN TOKYO AND KANSAI AREAS: EXPATRIATE OPPORTUNITIES

Enable certified private companies to hire expatriates in the field of housekeeping services in major cities in Tokyo, Kanagawa and Osaka

Six companies certified to accept expatriate housekeepers as of February 2017
COME AND INVEST IN JAPAN

1. Mingly Corp.
The Hong Kong-based company restored a traditional Japanese-style inn in Miyagi Prefecture. By making its facility more internationalized and modernized, the inn is attracting more visitors both from within Japan and overseas.

2. Valeo
The France-based company supplies innovative automotive components and systems to automotive manufacturers worldwide from its testing center in well-known R&D hub, Tsukuba, Ibaraki Prefecture.

3. Bosch Japan
The Germany-based manufacturer conducts research on automated driving in Japan, as the nation aims to implement the system by 2020. Japan’s complex and sophisticated traffic infrastructure has offered valuable insight for development.

4. RepliCel
The Canada-based regenerative medicine company chose to work with a Japanese firm to develop practical applications for its hair regeneration treatment as it expects the regenerative medicine market to expand rapidly.

5. Teradyne Inc.
The U.S.-based manufacturer of automatic test equipment built its new R&D and manufacturing facility in Kumamoto Prefecture. This facility functions as a central business hub for the Asia-Pacific region, leading the company to great success.
